

大会冠名特色专题 (15 Special Topics in 15th CSPV):

单晶 166 硅片及电池组件技术应用
M6 (166mm) mono-wafers and solar cell/module application

铸锭单晶技术及应用
Cast mono-silicon technology and application

Towards 25% p-type industrial silicon solar cells

High-efficiency cell technologies – from PERC to passivated contacts

N-TOPCon 电池技术与应用
N-TOPCon solar cell technology and application

钙钛矿太阳电池技术
Perovskite solar cell technology

高效电池技术及应用
Advanced solar cell technology and application

高效晶硅电池和组件制造技术
High-efficiency c-Si solar cell and module manufacturing technology

太阳能电池金属化技术及应用
Solar cell metallization technology and application

高效电池的封装及可靠性
High-efficiency module encapsulating and reliability

光伏背板发展趋势—可靠性与新技术
PV backsheet development – reliability and innovation technology

强化太阳能产业发展的原力，创新与稳健同步
Boost PV industry through trustworthy innovation

光伏智能制造
PV intelligent manufacturing

光伏电站系统应用
Solar PV power station application

平价产品测试与认证技术
Parity products testing and certification technology
